ABOUT ME

I'm a data analyst with 1+ years of experience. I'm skilled in building interactive dashboards with Tableau and integrating data from diverse databases such as MySQL, PostgreSQL, Redshift, Amazon RDS, and Microsoft SQL Server. I'm also proficient in Python for analyzing data and API development.

EDUCATION

❖ **Airlangga University – Bachelor's Degree in Statistics** (Aug 2018 – Nov 2022) (GPA 3.42/4.00)

EXPERIENCE

❖ **PT Pos Indonesia – Bootcamp Digital Talent II** (Jan 2024 – Jul 2024)

I was involved in the development of two applications, ITMS NOVA and SiPenDi. My role included preparing the Business Requirement Specifications and Systems Requirement Specifications, which included designing business processes, creating prototypes, and structuring the application database.

❖ **PT Pos Indonesia – Reporting Data Analytics** (Aug 2024 – presents)

In my current position, my roles including:

- Performed data analysis with Python (NumPy, Pandas, Matplotlib, Seaborn, Statsmodels, Scikit-learn).
- Built interactive dashboards using Tableau (calculated fields & custom measures).
- Integrated dashboards with various data sources (MySQL, PostgreSQL, Redshift, Amazon RDS, SQL Server).
- Occasionally develop backend APIs.

My projects while in this position including:

- [Route Optimization API – Python](#)
- [Sentiment Analysis Google Maps Review API – Python](#)
- PosAja! Customer Engagement Dashboard – Tableau (Private)
- PosAja! Digital Business Performance Dashboard – Tableau (Private)
- Remittance Fraud Risk Dashboard – Tableau (Private)
- Cheap Food Market Operation Dashboard – Tableau (Private)
- PLN Transaction Dashboard – Tableau (Private)
- Analysis of Suspected Fraud Cases in Cash-In and Cash-Out Activities at Counters – Python & Tableau (Private)
- Analysis Report of the Revenue Decline in PosAja! – Python & Tableau (Private)
- Analysis Report of BPJS Employment Contribution Payment Retention – Python & Tableau (Private)
- Analysis Report of Delivery Performance Semester 1 2024 – Python & Tableau (Private)

SKILLS

❖ **Python (Intermediate)**

- Data analysis (NumPy, Pandas), visualization (Matplotlib, Seaborn), machine learning (Scikit-learn)

❖ **Data Visualization (Advanced)**

- Tableau, Power BI, Google Data Studio

❖ **Databases (Intermediate)**

- MySQL, PostgreSQL, Redshift, Amazon RDS, and Microsoft SQL Server

❖ **Version Control (Basic)**

- Manage projects with Git/GitHub (branches, commits, pull requests).
